# GREETINGS

The best investments for the home is to plant fruits and shades. We make a specialty of supplying shades and ornamentals, for public grounds. We have had thirty years experience, and have tested out over ~~three~~ hundred varieties in our experimental grounds, and can assist you in selecting the most hardy and attractive trees, shrubs, etc. Try our family orchard collection and have fresh ripe fruit from June until October. We will select the late blooming and hardiest varieties for you if desired. Place your order early and secure the best.

Our transplanting season begins October 15th, and continues until May 15th. Early winter and early spring is usually better than late planting. When trees arrive unpack and heal them in or plant them in mellow ground, and water well immediately.

Our terms are cash with order or C. O. D. Remit by Post money order, draft, check, or if cash, by registered letter. These prices include packing and delivery to transportation companys, but do not include transportation charges. We recommend shipping by express. Small packages may be sent by parcels post.
